Our Company

In 1996, BIG PIX Graphic Systems, Inc. was established as a local provider of various outdoor printing services in the Philippines. The company catered to the movie industry and to direct corporate accounts. QUALITY and SERVICE COMMITMENT has been a standard engagement ever since. Our dedication to serve our valuable clients gave us the edge in the print industry during the company's formative years. In 1999 the scrolling motion display module from the U.S. paved way for systems display distribution. A wide selection of exhibitor displays needed for advertising and events were then provided in wholesale and retail. Till this current time, we have a wide array of systems display materials distributed nationwide with the inclusion of TEAR DROP Flag Banner Stands of different sizes made suitable for cloth and printed textile banners ads.

Our Products and It's Role in the Industry

Year 2000, our company became the Exclusive Distributor of the DGI LARGE FORMAT PRINTER. The DGI Omega REX 62, Vista Jet 92, VT100 series and VTIII 98 were then the stalwarts in the outdoor printing field till it upgraded to series II models. The DGI cutting plotters was also an addition for digital vinyl cutting. The DGI XP series was introduced in succession with competitive features and advantages. With models DGI XP 2506D, 1804D and 3204T selling well and the strong addition of the DGI POLAJET series with spectra heads, stable solvent printing embraced a high demand. Our business focus is the strength in nationwide service and machine durability. In the year 2007 the company was awarded the SOLE DISTRIBUTORSHIP of MIMAKI printers and digital cutting plotters. It is with full confidence that we distribute the most ideal model mix for indoor and outdoor printing supported with high resolution output and hardware/software stability. Reasonably priced consumables for diversified printing results with ample service became the focal point of our responsibility as a distributor.

The year 2010 escalated with more challenges in print and advertising, eco-friendly innovations paved way to new market trends. BIG PIX Graphic Systems Inc. continuously embraced the challenges by introducing then the UV- FLATBED technology with its Hybrid model DILLI Neo Titan UVT-1606 (W) S. Equipped with vacum belt system and the FIRST WHITE INK direct printer on full size 4 x 8 flat sheet drew in the new face of investors and print requirements. Speculation and interest in this new application was being realized. Currently focusing on exploring more creative products and concept based ideas on direct print and finishing. In order to address flexibly the various print dimension choices, the table top printer for smaller sizes and finest print resolution was likewise launched. The model was the MIMAKI UJF 3042FX. It became the most concise and reliable table top UV LED direct printer that catered from explorative and creative design entrepreneurs to the existing print providers. At the current time, MIMAKI has diversified further with the strong entry of the UJF 6042 and UJF 3042HG /6" head height UV LED models with 5.5" maximum print height. This model has helped realize the success of the

tplaque maker, customized give away, novelty, creative and design oriented printing customers.

The latest addition to our reliable machineries is the MIMAKI green technology JFX 200 2513 TRUE UV-LED FLAT-BED. This MIMAKI 1,220 mm. x 2,440mm. model is equipped with all the necessary performance on direct to sheeted media printing, economical, ease of use and environmental friendliness required of a dependable flatbed printer. It is proven to produce unparalleled results all in high definition that works to elevate the customers' business. With total solutions and print industry advancements in mind, the DYE SUB printing on heat transfer applications using MIMAKI Printers has likewise delivered versatile results for the textile printing. Useful for comfortable garments and interior market channels the direct to roll to roll textile printing is also made possible thru MIMAKI dye sublimation printing. With the use of our durable rotary heat transfer, conveyor press and drum type heat press machines, color vividness and temperature accuracy is achieved.

Our Trade Expansions

The durable MIMAKI CF2 digital die-cutter for boards, flexible sheets, vinyl and paper has also been added to the widely functional and versatile bed cutter line up offered for packaging production requirements and total board cutting solutions.

Year 2011, BIG PIX launched the industrial HANTER CNC Router/ Engraver model HRM48E for digital and industrial cutting ,engraving and routing for Wood, Acrylic, MDF, PCB and so much more used for interiors, industrial signs, advertising and the likes with the capability of 2D and 3D enhancements. The HANTER CNC Router technology is a heavy duty CNC machinery fit to serve requirements in full running capacity and highly functional on heavy production load. An evidence of the modern solution for detailed and digital woodworks. As the Signs and ADS industry customers grew more technical and explorative, BIG PIX Graphic Systems Inc. stretched its' products to the heavy duty GOLDEN Laser Machines. The GOLDEN laser is highly used for accomplishing detailed acrylic, leather, fabric, wood cutting and etching for signage, interior and construction. Now the orchestration of material finishing is easily dealt with optimism, accuracy and commitment. DWIN Laser cutters for acrylic and metal, running on single phase is another addition to our industrial cutter line. Its' affordability and rigid framework delivers impressive cutting precision at fast speed for customized cutting projects. Another productivesolution added to the industrial line of heavy duty performance flatbed cutters is the DYSS digital die-cutter. DYSS cutters represents flexibility, precision, durability and speed for finishing solution that gives value for your purchase. We will continue to distribute world class products as we render our Sales and Service commitment to the business partners and future clients unto whom we express our deep gratitude.

CALEDONIAN INTERNATIONAL CORP.**

Address : Spicers Building, 4384 Montojo Street, Brgy. Tejeros, Makati City
 Contact Person : Mr. Samuel Pimentel
 Designation : General Manager
 Tel Nos. : 898-1249 to 53
 Fax No. : 897-3815
 Email Address : caledonian@spicers.com.ph

Originally established as Caledonian Enterprises, Inc. in 1979 to locally promote, market and provide technical service to all state-of-the-art solutions manufactured by leading global providers of Printing Equipment and Consumables, exclusively represented in the Philippines by Spicers International Ltd. (Established 1963 in the Philippines with headquarters in London, UK).

In 2004 up to 2012 South Eastern Phoenix, Inc. took over the marketing and servicing of the products handled by Caledonian Enterprises, Inc.

In 2013 expansionary pressures made it necessary to resurrect the name Caledonian. Hence in the same year Caledonian International Corporation was born.

CALEDONIAN INTERNATIONAL CORPORATION

has warehousing facilities in #28 Pagataan St. Quezon City and a branch office in Cebu City at 3032 Gochan Building, Leon Kilat Street. Over the years it became a "one-stop-shop" for Printing Equipment and Consumables. Its own network of dealers throughout the country helped develop some 800 active buying customers.

The company is dedicated to giving support to the full range of machinery from pre-press to the finished product and in providing technical expertise in the printing of books, commercial works and packaging printing (folding cartons, corrugated, flexible film or paper). The company employs some 35 people, all skilled and specialized in their particular fields of focus, dedicated to giving the right solutions to the needs of a growing Philippine printing industry.

The Company currently represents or corroborates with the following prestigious partners:

MACHINERY

- BOBST Mex SA – Diecutters and Folder Gluers
- FP Rosback – Stitching and Finishing
- GERHARD BUSCH – Guillotines (Schneider)
- Punching and Label System
- GIDUE – Flexo Presses
- KBA GmbH- Offset Presses / Digital Presses
- LASERCOMB – Plotters / Lasers
- SHOEI Machinery – Folding Machine

CONSUMABLES

- BOHLER – Cutting and Creasing Rules.
- CITO – Creasing Matrix and Die Cutting Accessories
- DAETWYLER Swisstec – Doctor Blades
- ERNST MARKS – Calibrated Packaging Sheets
- THE FLINT GROUP of USA & Europe
- DAY BLANKET – Printing Blankets
- FLINT Inks – Inks and Varnishes
- FLINT PLATE – Digital and Analog Flexo, Letter Press
- VARN Chemicals – Press Room Chemicals and Sundries
- FOLEX – Underpacking Foils and Coating Plates

OTHERS : CTP and Offset Plates, Films, Molleton Cloth

Professional insight... Continuous innovation...

These are the hallmarks of Fuji Xerox.

- From 2008 we have moved beyond the “The Document Company”
- Actively supporting global business, connecting with customers in a new way, putting people and the environment first.
- We seek deeper understanding to create solutions that exceed customer expectations...
- Your partner anytime.
- Creating value to help your business grow around the world.

On December 13, 1965, Fuji Xerox introduced its products in the Philippines, the first country to market plain paper copiers in the whole of Southeast Asia.

Fuji Xerox Philippines is a wholly-owned subsidiary of Fuji Xerox Asia-Pacific, a company owned by Fuji Xerox Company, the corporate entity that resulted from the joint venture between Fuji Photo Film and Xerox Corporation.

Fuji Xerox Philippines is the biggest company in the industry in terms of nationwide coverage and owns the largest market share among market players. It also ranks among country’s largest and most competitive providers of document management solutions. Riding high on its product superiority and industry reputation for excellence. Tradition of Quality

Quality is a top priority at Fuji Xerox. Whether it concerns a Fuji Xerox product or any of its software or services, quality is a tradition that every Fuji Xerox employee faithfully observes. Its tradition of quality springs from the reputation that helped build the name Xerox as the most recalled and respected brand in the copier business. The tasks of keeping this tradition of quality alive is firmly implanted in the men and women of Fuji Xerox, to the extent that the company continues to reap quality awards in many countries around the world.

Xerox products are consistently rated among the world's best by independent testing organization.

Quick, Reliable Service

Even the best machines need to be maintained. Occasional repairs are inevitable. Realizing the urgency of having its equipment deliver the customer's expected results and minimize equipment down time, Fuji Xerox has an online "Self Help" tool which gives you direct access to a solutions database allowing you to find assistance in a fast, efficient and self-directed manner. Self Help has walk through instructions on clearing paper jams, replacing toner, staple cartridges and a vast range of other helpful How to's.

For customer requests, the customer shall experience state of the art support from our Customer Support Center. The CSC Agent shall attempt to resolve the customer issue as soon as they receive it. Aside from this, we have the Technical Support Center which is set-up to cater to resolve the customer issue via telephone assistance or remote assistance if the customer permits. Fuji Xerox operates a nationwide network of 12 sales offices and service depots (including seven dealer outlets nationwide) to respond to a wide range of customer requirements.

Commitment to Customer Satisfaction

Meeting Customer needs is just as important to Fuji Xerox as maintaining the quality of its products. This means that the quality of service it provides is performed consistently and with an intention to improve.

To Fuji Xerox, the best sales person is a happy customer.

Industry Leadership

Its meticulous concern for quality in its products and services has merited for Fuji Xerox its long running industry leadership in the country and in many parts of the world. The best assurance of excellent product performance is difficult to measure at point of purchase. Some companies offer promises, good promises. Fuji Xerox puts its reputation and industry leadership on the line.

GTY International Corporation represents Foil manufacturers and producers who are renowned leaders in the printing industry, known for their pioneering technology and expertise we deliver products with outstanding performance and quality. Our stamping foils can be used on a variety of substrates including; plastics, leather, MDF and graphics (such as poster boards, signs, coated paper, book covers, labels etc.). We carry a wide array of foils with an extensive range of colors & shades for different applications.

Hot Stamping Foil range:

- Metallic
- Pearl
- Holographic
- Pigment
- Coding
- Holographic Transparent

Cold Foils application:

- Narrow-Web Cold Foils
- Offset Sheet Fed Cold Foils

We pride ourselves on the consistency and ‘workability’ of our foils and our ability to work with partners from all parts of the supply chain to meet the most challenging technical, design and timing objectives connected with new product launches and applications.

Company Background

GTY International Corporation was established in 1976 as a trading and general merchandise company. During the early years, the company distributed various products such as plastics, corporate giveaways, sporting goods and equipment. In 1992, the company focused our business on distribution of Hot Stamping Foils. This allowed the company to capitalize on the potential of the growing printing industry. Moreover, specializing in the Hot Stamping and Cold Foil technology allowed the company to excel as the primary supplier of consumables for the Philippine printing industry.

Heidelberger Druckmaschinen Aktiengesellschaft (Heidelberg) has been a major provider and reliable partner to the global printing industry for many years. We offer our customers all the components tailored to their requirements for successful business operations; we are advancing the digitalization of the industry, providing integrated and reliable production processes, financially optimal investments and smooth access to all necessary materials.

We have geared our portfolio towards the growth segments of our industry. It is based on equipment, service and consumables. Services and consumables together account for around half of total Group sales. Within our portfolio we are continuing to expand the growth segments of packaging, digital and services through partnerships as well. On the one hand, the priority is to integrate and automate customers’ entire value chains and thereby to enhance the competitiveness of print shops. Also, system operations will be both increasingly smart and autonomous in the future with the right services. On the other hand, new digital printing offerings target customers’ expanded business models.

Our products, service offerings and consumables, in addition to our partnerships, are tailored to meet specific future-oriented customer needs and are geared towards our customers’ economic success. To achieve this we offer an all-round service with reliable presses and fully integrated solutions with the right services and consumables, which guarantee the utmost availability of all means of production and a smooth-running, continuous production process. The range extends from state-of-the-art digital technologies to preconfigured standard offset presses with corresponding cost benefits and fast delivery times, through to individually configured special presses for maximum productivity and every conceivable print application. We also support our customers by offering suitable financing concepts for their investment projects.

In total around 11,500 people worldwide work for Heidelberg, around a third of them in our global sales and service network. In Germany, we produce highly automated and versatile high-tech machinery according to customer requirements in all format classes we offer. In Qingpu, near Shanghai, China, we produce high-quality preconfigured edition models.

With our own sales and service branches and via partners, we supply our customers all over the world with products, services and consumables.

HICOR MANUFACTURING CORPORATION

Address : 2461 Sunrise Street Tambo, Parañaque
 Contact Person : Kathryn Cobankiat Cruz
 Designation : Asst. Admin-Manager
 Tel. Nos. : 853-6538 to 39
 Fax No. : 852-7242
 E-mail : hicorrubber@yahoo.com
 sales@hicorrubber.com
 Website : www.hicorrubber.com

HICOR Manufacturing Corporation, a duly registered corporation, is engaged and specialized in the manufacture and fabrication of high quality rubber products. Establish in 1985 in Pasay City, the company started as a small scale factory. In 1986, the company had access to the state-of-the-art technology on rubber through services of a research group based in Ohio, U.S.A. Since then, **HICOR** helped customers' confidence as well as increase in business. In 1989, **HICOR** built a new plant in Parang, Marikina, acquired bigger machineries to accommodate bigger jobs and expanded into metal fabrication. Today, the company has grown to more than a hundred personnel with an asset amounting to over a hundred million pesos. HICOR also has its branch in Los Angeles, California, U.S.A to handle the export market in that area.

“**HICOR**” is a trademark brand used by the company to stand behind its commitment to quality. Our product lines include roller, bumper, dock fenders, bearing pads, water stop, lining for chemical resistance, suspension elements, seals and gaskets, moulded or extruded products, etc., serving the industrial, agricultural, mining, milling, construction of ports and bridges, shipping and automotive sectors. The company also fabricates machinery parts which often involved rubber compound requiring resistance to weather, ozone, oil, heat, chemical, abrasion, compression, etc. And if the customer requires strict conformity to its specifications, HICOR has been the only rubber manufacturer certified by Lloyds Register of London to manufacture and supply container van door gaskets internationally. Also, its rubber dock fenders and bearing pads were tested and approved by the Dept. of Science and Technology (DOST), Philippine Ports Authority (PPA), Department of Public Works and Highways (DPWH), Dept. of Transportation and Communication (DOTC) and numerous projects nationwide. This is one of the many reason expert engineers and consultants highly recommend HICOR Rubber Dock Fenders.

The guiding philosophy of the company is to develop and maintain customers on a “Long term basis” through personalized product development, service and customers satisfaction. This is best expressed by the company’s statement,

“WE BUILD PRODUCTS THAT BUILD CONFIDENCE”.

LEXIS STERLING GOLD PHILIPPINES, INC.

Address : #1 Clarion Cor. Baxter Ave., Brookside
Hills Cainta, Rizal, Philippines 1900
Tel No. : (632) 655-6641
Telefax : (632) 655-6642 loc. 101
Email : jundc@lexisg.com.ph

LEXIS means of the law. Above all, we conduct our business in all legal ways possible, as well as ensuring proper ethics when dealing with business transactions with clients and suppliers, and even with competitors. For our employees, we share our blessings, and we provide them not only salaries but also comfortable lives.

STERLING means shining qualities. We shall strive to give the best service to our clients and suppliers. In order to establish a long lasting business relation, our primary concern shall be the mutual benefit of our clients and our company, and not simply making profits.

GOLD means the best products. We shall only deal with the best quality products as part of our contribution in the nation building. We believe that only quality products can uplift our clients' performance. We believe that business should always be at its best.

Lexis Sterling Gold Trading started its operation on July 29, 1998. The company is owned by Jun and Lolit Del Castillo, a loving couple with great family ties. Jun Del Castillo handled the Böttcher and Hostmann Steinberg products when he was still connected with Votra Phils. and C. Melchers GmbH. Eventually, the Del Castillo couple established LEXIS STERLING GOLD TRADING. Böttcher gave the exclusive distributorship to LEXIS. The couple believe that establishing their own company would enable them to give better service to clients.

Still young and aggressive, we are proud to be the exclusive distributor of Böttcher products in the Philippine market. Böttcher is a German company that has been in operation for more than 290 years. Böttcher is the OEM for original rubber rollers for Man Roland, Heidelberg and KBA machines. It is the biggest and the best rubber roller manufacturer in the world. Böttcher has a wide range of products, among which are printing chemicals, cleaning and maintenance of rubber rollers, printing blankets and ink fountain liners.

Lexis Sterling Gold Trading grew continually through the years and now caters to more than 200 printers in the Philippine market including newspapers, publishing houses, commercial printers and packaging companies. Since our products are on the high end, we are more concentrated on the big printers.

To serve the company's clients better, Lexis Sterling Gold Trading was incorporated into **LEXIS STERLING GOLD PHILS., INC.** last September 24, 2004. More than ever, LEXIS STERLING GOLD PHILS., INC. has more products to serve the clients, from rollers to blankets, from washes to developers, from PS plates to CTP Plates. Today, our main concern is to provide our clients with more environment-friendly products. We believe protecting our environment is the best policy to protect our clients as well.

Booth No. 23 LEENTECH NETWORK SOLUTIONS

Address: (Cavite) 2nd Floor I.P. Profeta Building,

LEENTech Network Solutions, Inc. is a dynamic team with almost 15 years of experience in developing Cloud Based Systems Application, Mobile Application Development, Digital Marketing & Consultation, and Cloud Server & Management Solutions.

Our company consists of 20 linchpins – a team that values what they do for the company. The company has Web designers, UI/UX Designers, HTML Developers, PHP Programmers, Web Business Manager, Optimizers, Photographers, Content Writers, Search Engine Optimizer, Technical Consultant, and Digital Marketers.

Company History

“LEENTech” is the acronym for “Living in an evolution of Enhanced Networking Technology”

The word LEENTECH came about 1998 when a small group of coders met over at Microsoft Internet Relay Chat (MIRC) during the popularity of the first open source Trojan launched, Back Orifice by the famous hacking organization called cDc (Cult Dead Cow). That was the first ever software which can be used to hack and access other computers over the Internet. Richard F. Prodigalidad was one of the founders of LEENTech.

In 2010, LEENTech Network Solutions, Inc. was established as a corporation and registered as a company providing network consultancy, technology security solutions, penetration testing and website maintenance. The company became a web developing powerhouse specializing in multi-tier-web-based solutions and powerful Internet market solution.

The company has developed around 300 website platforms, both in local and international market. We utilize best practice online project management tools to ensure that the development runs smoothly for both local and international clients. We were acknowledged and awarded as the “Best Designing Firm” in Cavite by the Philippine Chamber of Commerce – Cavite.

Our Mission is to emerge as the business company specializing in IT Business Development, Digital Marketing and Strategic Business Partnership for local and international markets.

Our Vision is to be the top IT disrupting company in the Philippines and to develop and online brand that can be renowned and used worldwide.

It is our privilege to introduce Multistiq, Incorporated to you. Our company has been in the Advertising business for almost twenty three (24) years now and our technology is definitely at par with our competitors.

We designed this material to better inform you of our business, management philosophy, products and services. We are sure that you will get a very clear picture of our business after reading this material.

Corporate Philosophy

Our Company stands by the rule that “customer’s satisfaction is our purpose.”

- To provide prompt and quality service.
- To maintain international standard for our products.
- To promote the well being of our employees that may do their best in all of their endeavors.

The Company

Multistiq, Incorporated is a company that specializes in environmental graphics. The company was introduced to the graphic arts industry and large-format images in 1993. Its offices are located in the heart of the Ortigas Business Center.

With a strong leadership and a competitive spirit, Multistiq, Inc. has gained a reputation for excellent workmanship.

Forever seeking to improve efficiency and quality, we have invested on research and development as well as in our main resource, our personnel. We have trained them to provide the best service possible.

Looking towards the future, we have only one goal and that is to improve on our skills so that we may serve our clients even better. We are Multistiq, Incorporated.

The Product

As an EXCLUSIVE DISTRIBUTOR OF MUTOH for almost sixteen (16) years, we are able to prove our position in the large-format printer industry

- Large Format Printer: This printer can be used for election campaign materials, advertisements, and personal needs using tarpaulins, stickers, backlit films and others. It is also capable of printing photographic billboard, photographic banners, bus wrap, outdoor backlit display, vehicle graphics (for all commercial vehicles or fleet marking), dropdown banners and all seasonal and long term corporate graphics, and all indoor photographic requirements
- Large Format Printer for Fabric Print: Ideal print for a wide range of coated textile like cotton sateen, cotton sailcloth, polyester banner and nylon fag.
- Large Format Flatbed Printer: Prints directly on uncoated media (e.g. Acrylic, Aluminum, Coating Board, EPS Board, PVC, etc.). It can also print on G.I. Sheet, Glass, Glass

Smoke, Plywood, Tiles, and Vinyl Tiles etc.

- Drafting machine: Provide prints for your technical drawings.
- Dye Sub Fabric Printer
- UV Led Printer

Other Products

Multistiq just launched new products as follows:

- **EFI RASTEK UV PRINTER:** Perfect ultraviolet (UV) printer that successfully applied to both flexible and rigid substrates like Corrugated Plastics, Plywood, Vinyl, Aluminum, Aluminum Plastic Composite, Cardboard, Acrylic, Glass, Polystyrene, and Polycarbonate. It is also ideal for Banners, Billboards, Display graphics, Exhibition graphics, Flags, Indoor and Outdoor signage, Posters, Point-of-purchase. Optimized and tested on Fome-Cor, PVC, and Photo Paper. It has a three (3) to five (5) year outdoor warranty.
- MGI 4 COLOR DIGITAL PRESS/MGI MULTI SUBSTRATE XL DIGITAL PRESS/JETVarnish 3D/IFOIL
- HAPPY ULTIMATE EMBROIDERY MACHINE: Adds beauty and themed detail to anything you sew including hats.

The Service

The company provides after-sales support through an on-going maintenance program that completes our total service concept.

Our staffs work hand in hand to achieve only the best in quality and service in order to serve our clients efficiently. They are dedicated to the company’s philosophy that, “customer satisfaction is our purpose”.

In order for you to keep pace with the evolving modern trends and new technological developments, Multistiq, Inc. is the company to rely on!

Booth No. 77 ORIX METRO LEASING AND FINANCE CORPORATION

Address : 21st Floor GT Tower International Ayala
Avenue corner H.V Dela Costa St. Makati City
Direct Line : (02) 858-8888/ 982-9400 loc. 361
Fax No. : (02) 858-8832

ORIX METRO Leasing and Finance Corporation, is a joint venture between two large conglomerates: the Metropolitan Bank and Trust Company (Metrobank) and the ORIX Corporation of Japan.

ORIX METRO and its subsidiaries serve top corporations through financing facilities and leasing services for transportation equipment, office equipment, industrial machinery, manufacturing machinery, and other types of equipment.

The company was initially incorporated on June 28, 1977 as Consolidated ORIX Leasing and Finance Corporation (COLF) and was granted authority as a finance company on July 1, 1977. Its first branch opened three years later in Cebu in September 1980.

ORIX METRO has subsequently opened other branches in key cities all over the Philippines. To date, ORIX METRO has grown to a total of 72 branches with plans of opening more branches this year. ORIX METRO offers mainly financial and capitalized leases. Operating leases of equipment, real estate and vehicles are done through wholly owned subsidiaries: ORIX Rental Corporation, OMLF International Trading and Development Corporation, and ORIX Auto Leasing Philippines Corporation, respectively. It also operates an insurance agency namely OMLF Insurance Agency. It also established the OMLF Service Corporation, a credit and collection firm.

On August 24, 2007, ORIX METRO was granted authority by the Bangko Sentral ng Pilipinas to engage in quasi-banking functions. Pursuant to an agreement with the BSP, OMLF was able to engage in quasi-banking functions, pursuant to certain conditions on January 1, 2008.

- ORIX Rental Corporation is a VAT registered company engaged in operating leases of motor vehicles, computers, office equipment, and selected manufacturing equipment.
- ORIX Auto Leasing Philippines Corporation is an LTFRB franchisee engaged in car-rental operations on short and long term basis. Major clientele are fivestar hotels and large corporations. Rentals are subject to three percent (3%) Carrier's Tax.
- OMLF International Trading and Development Corporation is engaged in the operating lease of real properties with improvements for warehouses as well as plant buildings and facilities. The company mainly offers these products to multinational clients.
- OMLF Insurance Agency caters to the insurance requirements of the OMLF Group of Companies.
- OMLF Servicer Corporation is a SEC registered company engaged in the general servicing business by providing credit and collection functions to individuals, firms, or corporations.

PIAP is one of the biggest associations of graphic arts practitioners totaling more than 700 members. It was organized on May 29, 1963 by a group of printers led by the late Alberto Benipayo, printer-publisher.

Objectives:

- To foster among its members adherence to the ethical standards of fair business practices.
- To promote their common welfare, maintain and enhance friendly relations among the members.
- To promote the general welfare of the printing and allied industries in the Philippines.
- To cooperate with the government or any agency in the study and solutions of problems affecting the industry.
- To conduct public relations and educational programs stressing the role of the printing industry in the national economic development.

Projects and Activities:

- Hold National Printers Convention (Semi-Annual)
- Hold PRINT PHILIPPINES Exhibition (Annual)
- Serve as database for Internet networking
- Promote export of printed materials
- Hold printing update seminars
- Hold general membership meetings
- Print six (6) issues of "The Philippine Printer"
- Participate in major international printing exhibits and conventions
- Provide free legal consultation on labor and tax problems to members
- Conduct search for outstanding printers
- Provide free technical assistance and disseminate technical updates
- Hold sports festivals and annual summer outing
- Hold dialogue with government agencies on matters affecting the printing industry
- Increase membership to 1,000
- Document the complete history of the Philippine printing industry

WE LOVE PAPER.

The feel on one's fingers, the smell, and the different colors and textures that it comes in. Despite technological advances that have made our world increasingly digital and connected to a device screen, paper will remain.

Paper can be used in a myriad of different ways. It is our medium of expression, celebration, and communication. The grandest ideas started out on small pieces of paper. Our most heartfelt emotions can be communicated in the same way.

On the 20th anniversary of Prestige Paper Products, we celebrate all the amazing things you can do with paper. Let paper be the medium of your best ideas and thoughts, and discover how it is indeed truly magical.

HISTORY

Ricoh (Philippines), Inc., was formerly named Inchcape NRG (Phils.) Inc. (INRGP). The company was established and registered with the Securities and Exchange Commission on January 6, 1997. INRGP was a 50-50% joint venture of Inchcape NRG, Ltd., a British owned company and Ricoh Japan, a 100% Japanese company. The Company was established to become the exclusive distributor of Ricoh copiers, fax and other document solutions in the Philippines.

The first office established was located at 7904 Lawaan Street, San Antonio Village, Makati City. This was subsequently expanded in July 1997 to G/F Antel 1000, 139 Valero St., Salcedo Village, Makati City for its executive and sales office leaving the Lawaan offices to house its service, distribution and warehouse offices.

After almost three (3) years of operations in the Philippines, INRGP slowly but surely carved a niche in the copier industry besting other leading competitors. Thus, in September 1999, Ricoh Company Ltd., Japan decided to buy out its partner to have more focus in selling exclusive Ricoh products thus making the company a sales subsidiary in the Philippines. The company was renamed Ricoh (Philippines), Inc. (RPH) in same month and became 100% Japanese owned company. A few months after, in January 2000, the company, to better streamline its operations, moved all its offices to G/F OPPEN Bldg., 349 Sen. Gil J. Puyat Ave., Makati City, Philippines, where it is now presently located.

Ricoh (Philippines) Inc. was formally established and registered with the Securities and Exchange Commission on September 22, 1999. This was made to meet new challenges in the market and to provide focused growth in the Philippines.

It is now a sales subsidiary of the leading global manufacturer of office automation equipment, Ricoh Company Ltd. The company's present lineups of products include digital and analog copiers, fax machines, and related supplies and services. The Company is rapidly building a solid presence nationwide as a provider of comprehensive document solutions that help customers streamline their businesses and cut operating costs.

It is directly reporting to Ricoh Asia Pacific Pte. Ltd., whose offices are based in Singapore, which is exclusively owned by Ricoh Company, Ltd, Japan. It is the regional headquarters covering marketing and sales activities in the South East Asia and Oceania.

The whole regions share a common goal to co-operate by developing valuable marketing know-how and experiences from different countries. It is also committed to supply the most advanced products together with outstanding service. Customer satisfaction is the most important key factor for the Company's future growth.

IMAGINE. CHANGE.
What it means

We are always moving forward with new thinking and new ways of improving lives. Change is driven by imaginative thinking. That is the proposition of the Ricoh brand. It describes the way we work with each other, the way we bring value to our customers' businesses, the way we interact with the market.

Each verb is a statement of intent expressing our commitment and forward movement. Each is a challenge, an invitation, and a call to action. Our Corporate Brand Tagline inspires Ricoh employees with a common mission, and encourages us to do our best.

It's more than just a new tagline.
 It's the essence of who we are.

How to use it

Our Corporate Brand Tagline is a long-term brand asset. With careful use, its value and power will increase. Therefore, we must use it consistently in all branded communications, as specified in our Brand Communication Guidelines.

As the most prominent part of the Corporate Brand Message System, it guides our brand communications, informing everything we write or say. It is also a key element in our brand's visual identity, and is used in lockup with our corporate brand logo.

The fastest large-format monochrome and color printing with up to 50% savings in total production cost

HP PageWide XL Printer portfolio redefines fast. Print up to 30 D/A1 pages/min in both monochrome and color. Set new standards for technical document quality.

Accelerate

Print monochrome and color up to 60% faster than the fastest monochrome LED printer. Deliver mixed monochrome and color sets in 50% of the time with a consolidated workflow

Grow

Now you can offer color GIS maps, high quality point of sale poster applications, and durable technical documents, all at breakthrough speeds in a choice of media up to 40-in/101.6-cm wide

Save

Cut job preparation and finishing cost up to 50%. Print monochrome technical documents at the same or lower cost than comparable LED printers

WSI is the oldest pure IT distributor in the country. Geographically, we have maintained our stronghold in Manila for Luzon, and in Cebu for the Visayas region. In 2010, we opened our Davao office to cater to the growing Mindanao market.

This 2017, WSI will celebrate its 35 years in the business, and I'm happy to share that we are a consistent top 500 company. Our success is mainly due to the partnerships that we have with our valued resellers, and the alliances with top global IT brands.

Right now, we handle top of the line 41 brands of hardware and software products.

#UBIX #PrintInnovation

U-BIX Corporation is a 42-year-old top 1000 company, engaging in the sale and distribution of both office and production printing machines, and their related services with the objective of providing a one-stop solution to the needs of its customers.

U-BIX is the exclusive distributor of Konica Minolta digital production printing and multi-function machines branded as the "bizhub." Konica Minolta, with U-BIX Corporation as its partner in the Philippines since its inception, is committed to continuously develop products that are "innovate, creative, and dynamic."

Over the years, U-BIX evolved into an integrated office system and service provider by acquiring distributorships for Riso digital duplicators and Okamura office furniture systems.

Additionally, the company also obtained US franchise agreements with Service Master (facilities maintenance and janitorial services), Terminix (termite and pest control products and services), and Merry Maids (home cleaning services).

U-BIX pioneered the Lifetime Free Service Guarantee and the 24 x 7 tech support, setting the industry standard for service. To date, U-BIX still continues to uphold this commitment, which is the very foundation by which the corporate culture is built.

In November 2006, U-BIX Corporation was awarded the ISO 9001:2000 certification for distribution, sales and services of copiers. Then, in 2011, U-BIX Corporation upgraded its certification to the ISO 9001:2008 version.

In August 2007, U-BIX purchased the Kodak Imaging Center (KIC) business of Kodak Philippines Limited. Its services include document and microfilm scanning, document management system (DMS), data capture, and variable printing services. The business now operates under the name "U-BIX Imaging Center."

U-BIX Corporation continues its market leadership through strong sales and customer service group, specialized field service skilled production team, and extensive distribution network that are strategically placed in 18 branches nationwide.

YII LEE ENTERPRISE CO., LTD was established in 1979. From the beginning, our main strength is the manufacture of paper feeding machine. We have won our customers' praises as we continue to practice constant technological innovations and R & D to lead the post-press industry towards new trends.

In the past decades we released many widely recognized machines, including paper feeding machine, stacker, coating machine, calendaring machine, UV spot coating machine, water-based PP film laminating machine, and lately, the UV spot hologram film transferring machine. Our embossing machine was awarded with the multi-nations patent in Taiwan and Japan.

Yii Lee continues to grow. We continue to develop innovations in improving our post-press equipment to make Yii Lee machines flourish in every corner of the world.
